Sequence 8, Application US/10267311

Patent NO. 6657055

GENERAL INFORMATION:

APPLICANT: Siegel, Marvin

APPLICANT: Chu, N. Randall

APPLICANT: Mizzen, Lee A.

TITLE OF INVENTION: INDUCTION OF A THI-LIKE RES

FILE REFERENCE: 12071/002001

CURRENT APPLICATION NUMBER: US/10/267,311

CURRENT TILING DATE: 2002-10-09

PRIOR APPLICATION NUMBER: US/09/613,303

PRIOR FILING DATE: 2000-07-10

PRIOR APPLICATION NUMBER: US 60/143,757

PRIOR PILING DATE: 1999-07-08
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      APPLICANT: Siegel, Marvin
